

Fresh Fruit Salsa Anytime

Article written by Ann Fenton (afenton1@unl.edu), Extension Educator in Pierce County.

Fruit salsa is always in season. While many fruits are available year round, some fruit is more seasonal. For instance, strawberries are best in spring and summer, while apples have varieties available all year round. Many fruits are imported, so the grocery store can carry them more often. However, for best flavor, think about what fruit is in season. By using a variety of fruit, you can always have a nutritious, delicious salsa that fits the season. Below are examples of seasonal fruit:

Winter Fruit	Spring Fruit	Summer Fruit	Fall Fruit
Oranges	Strawberries	Kiwifruit	Grapes
Pears	Pineapple	Blackberries	Mangos
Grapefruit	Apricots	Watermelon	Raspberries

Here are a few tips for serving fruit to young children:

- Set a good example for children by eating fruit every day with meals or as snacks.
- Offer children a choice of fruits for lunch.
- Depending on their age, children can help shop for, clean, peel, or cut up fruits.
- While shopping, allow children to pick out a new fruit to try later at home.
- Decorate plates or serving dishes with fruit slices.
- Top off a bowl of cereal with some berries. Or, make a smiley face with sliced bananas for eyes, raisins for a nose, and an orange slice for a mouth.
- Keep a bowl of whole fruit on the table, counter, or in the refrigerator.
