With March comes St. Patrick’s Day and the first hints of spring, which means a lot of green, and maybe even a leprechaun with a pot of gold at the end of the rainbow. This spring, challenge yourself and your family to increase your activity and fruit and vegetable consumption.

**Challenge 1 - Get Moving:** Warmer temperatures, longer days, and a touch of spring fever can be good incentive to increase your activity level by going outside to explore your neighborhood, a local park, a new walking path, or your own backyard. Adults need 2 1/2 hours a week of physical activity, and children need 60 minutes a day. To tie in St. Patrick’s Day check out the *10 Easy Ways to add Green to your Day* list.

**Challenge 2 - Add Color:** To fuel outdoor adventures, add more color to your plate. Be a good role model and serve/encourage your family to see how many different colored fruits and vegetables they can eat at a meal. Try the Power Smoothie below. It includes fruits and veggies from at least four colors of the rainbow, or visit [https://www.fruitsandveggiesmorematters.org/top-10-ways-to-enjoy-spinach](https://www.fruitsandveggiesmorematters.org/top-10-ways-to-enjoy-spinach) and try one new way to enjoy spinach.

---

### Power Smoothie
**Ingredients (4 Servings)**
- 1 to 1½ c. fresh spinach
- 2 c. pineapple, mixed berry, or other 100% juice
- 1½ c. frozen mixed berries
- 1 (6 oz.) container low-fat yogurt
- 1 banana
- 1 c. ice

**Directions**
1. Place spinach in blender with juice. Blend thoroughly.
2. Add remaining ingredients and blend.

**Nutrition Facts per Serving:**
