Teaching Early Childhood Providers Works
What did your program find most helpful from participating in Go NAP SACC?

“I really enjoyed working with my trainer. She was very helpful in the areas I needed a little more push. This has been my favorite training/program I have participated in the past 16 years of daycare. I made so many positive changes and the kiddos are so happy and so am I.” 
Family Child Care Owner, Gretna

“These goals were all the things I wanted to eventually do, and Go NAP SACC helped me to finally get them done!”
Child Care Center Director, Hastings

“I truly loved doing Go NAP SACC. It was fun to do!”
Family Child Care Owner, Norfolk

“I really loved all of the information that Go NAP SACC provided and how it interconnected all of the nutrition, physical activity, outside time, breastfeeding, and infant feeding ideas together. This program has truly made me look at all of these areas in a new light and shown me why they are important.”
Family Child Care Owner, Lincoln

Partnering Organizations Collaborating to Support Healthy Young Children

Go NAP SACC (Nutrition and Physical Activity Self-Assessment for Child Care) is an evidence-based program for improving the health of young children through better nutrition and physical activity in ECE programs.
