

Banana Tree

Makes two trees

Two pineapple rings

One banana

Small pieces of fruit: grapes, strawberries, pears peaches, cherries, apples, any kind of fruit

Toothpicks

1. Place pineapple ring on a plate. Peel banana and cut in half.
2. Stand the cut end of the banana half in the center of the pineapple to resemble a tree trunk.
3. Place a toothpick through pieces of fruit. Stick the other end of the toothpick into the top area of the banana. Each toothpick will represent a branch on the banana tree.
4. Fill the tree with as many fruit branches as desired.
